

## CH365 CHEMICAL ENGINEERING THERMODYNAMICS – RESUMES – UPDATE

**Distributed:** Lesson 1

**Due:** Draft 2 is due NLT 2359 Sunday 8 December 2024

**Point Value:** 200 (see note below)

**Resources:** This document, the original handout, course web site links, and various internet sources as needed

**Assignment:** Update your one-page resume. (The one-page limit is required.)

Your task is to update your one-page resume that was submitted earlier this semester. This task requires that you review the grading rubric, particularly row 3 of the rubric, intellectual growth. The requirement is to add skills acquired this semester. For example, there may be an experimental procedure or theoretical method that you learned in one of your current courses.

**Note:** The grade on this assignment replaces your grade for the first version.
