

# Guidance and Deliverables for IPR1

- Outcome (Project Deliverable) – What we are trying to do.
- Market economics – How much do similar units cost? Need TCI and production rate for other similar units.
- Process Chemistry – How does it work?
- Design methods – What tools will we use?
- Modified project Gantt chart.
- Other thoughts – Summary of any progress made on SU modifications or GTL process design.
- Assume 30-45 minutes for your presentations
- Powerpoint will go into your share directory for grading.
