

CH365 CHEMICAL ENGINEERING THERMODYNAMICS – RESUMES – UPDATE

Distributed: Lesson 1

Due: Final Draft is due NLT 1630 Friday 1 December 2023

Point Value: 200

Resources: This document, the original handout, course web site links, and various internet sources as needed

Assignment: Update your one-page resume. (The one-page limit is required.)

Your task is to update your one-page resume that was submitted earlier this semester. This task requires that you review the grading rubric, particularly row 3 of the rubric, intellectual growth. The requirement is to add skills acquired this semester. For example, there may be an experimental procedure or theoretical method that you learned in one of your current courses.
