

Problem Set:				Cadet Assessed:					
	1 – Needs Improvement	1	2	3 – Meets Expectations	3	4	5 – Exceeds Expectations	5	N/A
<b>Completion</b>	No work was submitted, or the work that was submitted was too preliminary.			Substantial effort was demonstrated, but the problem is incomplete.			Problem is solved completely.		
<b>Accuracy</b>	Substantial errors are present, leading to solutions that are implausible.			Cadet answer differs from the approved solution, but differences are due to minor errors.			The problem is solved correctly.		
<b>Communication</b>	Work shown cannot be understood.			Logic is apparent from the work shown, but writing is difficult to follow.			Work is well-organized and easy to follow.		
Has this cadet demonstrated ability to apply knowledge of math, science, and engineering? (Y/N)		Has this cadet demonstrated ability to identify, formulate, and solve engineering problems? (Y/N)				Score: _____
