

IPR2 – Due Monday 28 April by 2359.

General Guidance:

- Appointment is not required.
- A PowerPoint slide deck submission is required. Grades will be based on the quality of the submission.
- Slides must discuss highlights of work to date.
- PowerPoint or other written documents (draft) will be considered.
- The grading rubric for the project will be used for assessment. You are not expected to score a 10 in any column.
- Expected levels of attainment are highlighted in yellow in the rubric. For example, in column 1 “Design,” groups are expected to attain a score of 5, and a score of 5 will be interpreted as 100% in that column. Other grades for other columns follow in a similar way.
